DETAILED ACTION

Allowable Subject Matter

1. Claims 13-28, respectively renumbered as 1-16, are allowed.
2. The following is an examiner's statement of reasons for allowance:

Kikuchi et al (US 5,870,523) in view of Willis (US 6,154,603) in further view of Ando et al (EP 1 021 048) teaches a system that provides a method of recording the bitstream for trick play mode. Kikuchi discloses the recording of the bistream in predeterermined size stream object units as seen in Figure 26. Additionally, Kikuchi discloses the use of an access start map for access information and start maps with respective flags assigned to various objects. It was further taught by Willis for the system to decode pictures for trick play operations as seen in Figure 1b. The access unit allows the recorded bitstream to be accessible for trick play as described in Column 4 Lines 55+ through Column 5 Lines 1-12. The ability for the bit stream to contain a trick play operation allows for accessing of the data at various points through the bitstream. It is further taught by Ando et al the ability to record an access unit start map that contains a flag that is assigned to the bit streams as described on Page 7 Lines 40+ through Page 9 Line 20. However, the prior art of record failed to disclose, teach, or fairly suggest the following limitation:

"recording an access unit start map for said access unit information wherein said access unit start map a **respective single flag** is assigned to each one of the said stream

Art Unit: 2621

object units, each of the said flags indicating with a first value that the start of one of said access units is contained within a range of said recorded bitstream consisting of a corresponding stream object unit and the immediately subsequent stream object unit, or indicating with a second value that no corresponding access unit exists for that flag and its related stream object unit”

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
